

Family Day Weekend Fun

FEBRUARY 13, 14 & 15

There's something for everyone, from the budding magicians to the future natural scientists, during this special family celebration!

All of the listed activities are included with regular admission.

ROYAL ALBERTA MUSEUM

12845 – 102 Ave., Edmonton T5N 0M6 www.royalalbertamuseum.ca

Experience our newest exhibition!

Natural Selections – Opens February 13

Natural Selections features eight fascinating research projects directed by Museum scientists. Each project draws on the Museum's collections to produce new information and offer different perspectives on Alberta's biodiversity, past and present.

Special Events

Wild by Nature – 11 am and 2 pm on Sat., Sun. in *Wild Alberta*

Join our Gallery Interpreter for a look at what's hidden beneath the surface of our wildlife and forestry displays! Stories and hands-on activities are just part of the fun.

Program supported in part by FRIAA. 

SATURDAY, FEBRUARY 13

Museum Magic! – Two shows (1 pm & 3 pm; 40 minutes each)

Be amazed at the illusionary skills presented in this family-friendly show by members of *The Edmonton Magic Club*.

SUNDAY, FEBRUARY 14

Special Presentation – Islands of Time

With Brian Keating, Head, Conservation Outreach, Calgary Zoological Society at 1:30 pm in the Museum Theatre

During this visual journey, Brian Keating will lead us through some remote tropical islands, exploring the home of some of the planet's most beautiful yet strangest life forms. This is a story of wildlife discovery in the remote forests, rivers and mountains of Papua New Guinea, Borneo, Madagascar, the Galapagos Islands and other island landscapes. The adventure will draw a direct link to our own "continental islands" of biodiversity here in Canada.

MONDAY, FEBRUARY 15 **FREE ADMISSION!**

Museum Magic! – Two shows (1 pm & 3 pm; 40 minutes each)

Be amazed at the illusionary skills presented in this family-friendly show by members of *The Edmonton Magic Club*. (Donations accepted to assist *The Edmonton Magic Club*.)

Encounters with Curators – The Museum's Life Science Curators will be available to talk about the research featured in the *Natural Selections* exhibition and show how their findings help us better understand and protect the natural world around us.
